

ANNOUNCEMENT

The Animal Production Research Institute (APRI), is pleased to announce the “Management of Livestock and Poultry Genetic Resources, within the Scope of Climate Change” Training Workshop

The training workshop is organized within the Task 7.5 of the EU-funded “Innovative management of Animal Genetic Resources (IMAGE) project” that aims to enhance the use of genetic collections and to upgrade animal gene bank management, developing genomic methodologies, biotechnologies, and bioinformatics for a better knowledge and exploitation of AnGR.

Objectives of the training workshop is to support the capacity of Egyptian AnGR stakeholders in:

- Analysis of Policy(ies) and Legislation(s) dealing with management of AnGR.
- Inventory and characterization (phenotypic and molecular) approaches including adaptation traits.
- Analysis of the current status on conservation of local AnGR; approaches, achievements, gaps and opportunities.
- Community-based conservation (utilization) programs supporting the conservation of adapted AnGR.

The training workshop will include technical presentations; brainstorming and working sessions; and plenary discussions; in addition to hands-on statistical analysis training for genotyping data.

Workshop participants, venue and time

The training workshop will be organized in the period **Sunday 3rd to Thursday 7th November 2019**, in the main meeting venue of the **Animal Health Research Institute (AHRI)**, Shooting-Club St, Dokki, Giza, Egypt.

A total number of Twenty-four (24) participants, representing different AnGR stakeholders, will be invited. Participants will represent scientist, AnGR policy executives, NGOs, and AnGR graduate students. Participants are expected to have their laptops; meeting room will be facilitated with Wi-Fi access for the online-training exercises.

For participation, please send your CV and letter of intent, explaining the reason why you would like to participate in this training workshop and full availability along the workshop duration to the organizing committee contacts. Organizing committee will contact **only accepted applicants** sending them participation letters. Only applicants with official participation letter will be allowed to participate.
